

Floriade

Your property and access, our challenge

PARK FENCING

Floriade: inconspicuous, but effective

With Floriade park fencing you discourage unauthorized entry of green areas. You prevent motorists, scooters and cyclists destroying plants or unauthorized parking. A large, eye-catching fence is unnecessary. With the 30 or 40 cm. high Floriade fence your green area is inconspicuously, but effectively protected.

Application

Floriade is ideal for public areas, like

- parks
- gardens
- lawns
- green areas (for example next to offices)

Security starts outside
